BRIEF ABSTRACT OF LETTER

Forwards an estimate amounting to Rs 35,899/- read from the Executive Eng'r, South 4th & approved by the Central Govt. Board for completing the remaining works in the Malleswaram Extension and states that a large sum of money has been spent on this extension in opening out the roads, constructing drains &c but houses have not been built on the portions where work has been done. It is stated that several years have passed and engineers in the above circumstances, more money should be spent on these works would not be a luxury.

To

B. Ramaswamiya, Esq. B.A. F.L.

Secretary to the Government of Mysore

Revenue Department Bangalore

Sir,

I have the honour to forward herewith an estimate amounting to Rs 35,899 for completing the remaining works in the Malleswaram Extension of the Bangalore City received from the Executive Engineer Sanitary Division, and duly approved by the Central Sanitary Board. A copy of the resolution of the Board approving the estimate is also forwarded.

2. However, from a careful consideration of the question it seems to me that it is no longer a subject for the mere recommendation of the Central Sanitary Board. A large sum of money has been spent on this extension in opening out new roads, constructing drains, building tunnels etc. but houses have not been built on the portions where these works have been done though several years have passed by. So the question has to be dealt with from a practical point of view whether more money should be spent on these would be luxuries when houses have not been built to take advantage of them. I therefore request the favour of your placing the question before Government and obtaining their orders thereon.

I have the honour to be,
Sir,
Your most obedient servant,

R. Sundaram

Sir

Referring to your letter No R 3351/Ml 43-20-7 dated 6th September 1920 calling for the views of the Municipal Council on the observations of the Chief Engineer regarding the sites that have not been built upon in portions of the Malleswaram Extension &c, I have the honor to state that the subject was considered by the City Municipal Council at the Meeting held on the 6th Instant and a copy of their resolution is submitted herewith for the information and orders of Government. The subject elicited much discussion in the Council and while admitting that several sites remain unbuilt in the Malleswaram Extension even in places where roads drains &c have been provided, the Council are of opinion that without the help of clear legislation it will not be possible to enforce the construction of buildings on the sites in the Extensions. Sites were sold several years ago and the conditions of grant were such that for one reason or another they could not be enforced.

Sir,

M (42-20-37)

With reference to your letter No R 11278/M 42-20-
-35 dated 8th April 1921, stating that the marginally noted
works should be undertaken and completed out of Municipal funds
I have the honor to state that the Basavangudi and Malleswaram
Extensions were laid out at the cost of Government and that the
values of sites realised from them are being credited to
Government All the work connected with the lay out is being

1 Completion of works in the Malleswaram Extension at a cost of Rs 35 899/- carried out in the
2 Laying water supply mains at a cost of Rs 8 150/- in the Ryots Block of the Sanitary Engineering
Malleswaram Extension Department at the

cost of Government and the roads lanes, drains etc , when
completed by that Department are being handed over to the Mu-
nicipality for maintenance at the cost of the Municipal Council
It will thus be clear that the execution of the remaining
works to be carried out to complete the lay out is a legiti-
mate claim on State Funds -

I therefore beg to return herewith the plans and
estimates relating to the above works and to request that
Government may be pleased to order the execution of the works
at their cost as before

P. 924-58
M.C. 42-20-42

Dated Bangalore, the 15/8/1921

*Exec. Engr's
plans
to be
forwarded*

In forwarding with his letter No.B.

~~1101 dated the 30th July 1920~~

first
read above, an estimate amounting to
Rs.35,899/- for completing the remaining
works in the Malleswaram Extension of the
Bangalore City received from the Executive
Engineer, Sanitary Division, the Chief
Engineer observed ^{that} though a large sum of
money was spent on this extension in
opening out new roads, constructing

drains etc,

*3/10/21
R/S*

22

2

houses have not yet been built upon all the sites in localities where such works have been carried out, though several years have elapsed; and that further expenditure in this direction seemed uncalled for, when so many sites were lying vacant.

With his second letter read above, the Chief Engineer forwarded another set of alternative estimates amounting to Rs.17,300/- and Rs 8,150/- for laying water supply mains and sub-mains and for erecting fountains in the Ryots Block of the Malleswaram Extension of the Bangalore City, prepared by the Executive Engineer, Sanitary Circle, at the instance of the City Municipality, and observed that though Government had spent a large sum of money in laying out sites and roads etc., in the said locality, very few houses had been built so far, and that further expenditure was not justified in the absence of people to construct houses.

Thereupon the President of the City Municipal Council was requested to obtain and furnish the views of the Municipal Council on the observations of the Chief Engineer. The President accordingly reported that, while admitting that several sites remained unbuilt upon in the Malleswaram Extension

✓

3.

Extension even in places where roads, drains etc , have been provided, the Municipal Council were of opinion that in the absence of legal provision, it would not be possible to enforce the construction of buildings on the sites in ^{the extension} ~~the extension~~ areas.

In this office letter No.R.11278/M 42-20-33 dated the 8th April 1921, it was directed that the two works referred to above namely (1) completion of the remaining works in the Malleswaram Extension and (2) laying water supply mains ~~and~~ etc., in the Ryots' Block of the Malleswaram Extension be undertaken and completed out of Municipal Funds and that Government ~~cannot~~ ^{could not} pay for such works any longer

~~Thereupon~~ The Municipal President ^{thereupon stated} in his letter No.214 dated 26th April 21 ~~stated~~ that all the works connected with the lay out of the Malleswaram and ^{Basavangudi} ~~Basavangudi~~ Extensions are being carried out in the Sanitary Engineering Department ^{Branch of P. & S.} ~~and~~ at the cost of Government, that the proceeds realised from the sale of sites in these extensions are being credited to Government and that the roads, lanes and drains etc , when completed by that Department are being handed over to the Municipality for maintenance and added that the execution

of

of the remaining works to be carried out to complete the lay out of these Extensions was a legitimate ^{change} ~~claim~~ on State Funds only.

The Govt observe that
Consequent on the out break of plague for the first time in the Bangalore City in the year 1908, ^{it was} ~~Government~~ ^{at the time} ~~was~~ considered ~~to~~ very necessary, to relieve congestion in the City as a plague preventive measure, and they accordingly sanctioned the layout of two Extensions to the City. viz the Basavargudi and the Malleswaram Extensions at the cost of Government, ~~and~~ the sale proceeds of building sites therein ~~being~~ being credited to Government.

In view of the fact that Government have been ^{since} incurring expenditure largely in several other ways for the improvements etc, in the City, they consider that it is ~~time~~ ^{now} that the City Municipal Council ~~should~~ ^{understand} ~~undertake~~ to bear in future the entire charges connected with the lay out of the remaining portions of the two Extensions and they accordingly direct that the ~~entire~~ charges connected with the execution of the remaining works ~~to~~ be carried out (~~to complete the lay out of the two Extensions~~) be met from Municipal Funds in future. [the sale proceeds of sites realised therein being, ^{also} in future, credited to those funds only]

The plans and estimates received from the Chief Engineer are herewith returned.

Letter No. B.1101 dated 30th July 1920 from the Chief Engineer of Mysore forwarding with certain remarks an estimate amounting to Rs. 35,000/- for completing the remaining work in the Malleswaram Extension, Bangalore City.

2. Letter No. 1703 dated the 13th August 1920 from the same Officer forwarding alternative estimates amounting to Rs. 17,300/- and Rs. 3,150/- for laying water main and sub-main and for erecting fountains in the Ryet's Block of the Malleswaram Extension.

O R D E R -- No.

L 924-8
and 42-20-42

Dated Bangalore, the 15th August 1921.

In forwarding, with his letter first read above, an estimate amounting to Rs. 35,000/- for completing the remaining work in the Malleswaram Extension of the Bangalore City received from the Executive Engineer, Sanitary Division, the Chief Engineer observed that though a large sum of money was spent on this extension in opening out new roads, constructing drains etc., houses have not yet been built upon all the sites in localities, where much work has been carried out, though several years have elapsed, and that further expenditure in this direction seemed uncalled for, when so many sites were lying vacant.

With his second letter read above, the Chief Engineer forwarded another set of alternative estimates amounting to Rs. 17,300/- and Rs. 3,150/- for laying water supply main and sub-main and for erecting fountains in the Ryet's Block of the Malleswaram Extension of the Bangalore City, prepared by the Executive Engineer, Sanitary Division, at the instance of the City Municipality, and observed that though considerable work had been done

large sum of money in laying out sites and roads etc., in the said locality, very few houses have been built so far, and that further amendments was not justified in the absence of people to construct houses.

Thereupon the President of the City Municipal Council was requested to obtain and furnish the views of the Municipal Council on the observations of the Chief Engineer. The President accordingly reported that, while admitting that several sites remained unutilized upon in the Jalisco Extension, even in places where roads, drains, etc., have been provided the Municipal Council were of opinion that in the absence of legal provision, it would not be possible to enforce the construction of buildings on the sites in question.

In some previous papers no. 11872/21, 42-23-25 dated 14th April, 1921, it was directed that the two works referred to above namely (1) completion of the remaining works in the Jalisco Extension and (2) laying water supply mains etc., in the Hyde's Block of the Jalisco Extension be undertaken and completed out of Municipal Funds and that Government could not pay for such works any longer.

The Municipal President thereupon stated in his letter no. 214 dated 26th April 1921 that all the work connected with the lay out of the Jalisco and the Basavangudi Extensions are being carried out in the Sanitary Branch of the Public Works Department at the cost of Government, that the proceeds realized from the sale of sites in these extensions are being credited to Government and that the roads, lanes and drains etc., when completed by that Department are being handed over to the Municipality for maintenance and added that the execution of the remaining works to be carried out to complete the lay out of these Extensions was a legitimate charge on State Funds.

The Government observe that consequent on the outbreak of plague for the first time in Bangalore City in the year

It was considered very necessary at the time to relieve congestion in the City as a general preventive measure, and they accordingly sanctioned the layout of the extensions to the City, viz., the Broadways and the Gallandian Extensions at the cost of Government, the sale proceeds of building sites therein being credited to Government.

In view of the fact that Government have been since incurring expenditure largely in several other ways for the improvements etc., in the City, they consider that it is time that the City Municipal Council undertake to bear in future the entire charges connected with the lay out of the remaining portions of the two Extensions and also accordingly direct that the charges connected with the execution of the remaining work to be carried out be met from Municipal funds in future, the sale proceeds of sites realized therein being also in future, credited to these funds only.

The plans and estimates received from the Chief Engineer are herewith ret.

H. C. Ramachandran
Secretary to Government.

E. K. Revenue Department.

To

The President, Bangalore City Municipal Council.

The Chief Engineer of Mysore.

The Comptroller to Government.
